

additional time may be used for activities related to patient safety, such as assisting with transitions of care, and/or student education. Additional patient care responsibilities must not be assigned to the student during this time.

4.1.4 If a student stays an additional 4 hours after an assigned shift as described in 4.1.3, then the student should submit a justification for the additional time through the course evaluation platform.

4.1.5 The minimum time off between consecutive scheduled shifts is 10 hours. This includes any time spent in a classroom or other educational setting during the break.
